The access issue which began at approximately 9:43 am EST today is now resolved and access to the Production Environment has been restored. Our technical resources are still working on the UIT environment.

JAGGAER technicians are monitoring system resources closely and are working to identify root cause. We appreciate your patience while we work to fully resolve the problem.

If you have questions about this please send an email to RealSource@vcu.edu or call 8-1077, Option 6.
